

BobWIRE Version 16.1: BobWIRE 16.1 is a very easy CAD/CAM system to use for programming 2 & 4 Axis parts with your Wire EDM. The software screens are simple and allow you to either import your file or draw the profiles that you want to cut. Full 4 axis programming is available and built right into the CAM for easy NC Code generation and output to your EDM Machine. Have a look at the feature list below and you can download a working evaluation version of BobWIRE at www.bobcad.com.

CAD-Design & File Import	Version 16.1 BobWIRE
DXF File Import	YES
IGES File Import - Wireframe	YES
2D Drawing & Editing Drawings	YES
3D Drawing & Editing Drawings	YES
Part Dimensioning & Print Making	YES
Drive Curves through Points	YES
Easy Drawing Toolboxes	YES
Geometry Verification – For drawn or imported DXF/IGES files geometry.	YES
Toolpath Creation	Version 16.1 BobWIRE
2D Open Shape Profiles	YES
2D Closed Shape Profiles	YES
Automatic Wire approach for 2D Profiles	YES
Automatic wire approach for 3D/4-Axis Geometry	YES
Slugless Pocket Style Wire Toolpath	YES
Clean Circle Toolpath	YES
4-Axis Tapered Wall Toolpath	YES
Gear Creation & Profile Toolpath	YES
4-Axis Wire Programming – With or without using drawn guides.	YES
2D Wire Toolpath Simulation	YES
Automatic Wire Approach/Depart	YES

CAM - Programming	Version 16.1 BobWIRE
Automatic Wire Compensation	YES
Cutting Condition Tables – These are operator customizable. Up to 6 skim passes or more are available as well.	YES
Customizable CAM Menus – This is easily accomplished for creating canned cycles or wire commands/M-Code options.	YES
Debur & Glue Stop Options	YES
Auto Radial Approach/Depart	YES
CAM & Communications	Version 16.1 BobWIRE
RS 232 Communications – Fully Customizable by the operator. Send & Receive functions built-in.	YES
DNC Communications - Fully Customizable by the operator. Send & Receive functions built-in.	YES
Post Processor Configurations - Fully Customizable by the operator.	YES
Post Processor Library – Available to all customers at no extra charge.	YES
G-Code Editor	YES
Verification	Version 16.1 BobWIRE
Solid NC Verification/Part Simulation	2D ONLY
2D NC-Code Backplot	YES
Visual Wire Approach	YES
Training	Version 16.1 BobWIRE
Complete Training Manual	YES
Multimedia Training CD Videos	NO
Training Seminars – On Location or at our International Training School. Call 877-262-2231 or 727-442-3554 for availability and scheduling.	Available for scheduling
